Denver Colorado 80222 1530

Gentlemen

A meeting was held on April 1 1993 to discuss the mitigation of a wetland at Operable Unit No 1 (OU) In attendance (see enclosed list) were representatives from the Environmental Protection Agency (EPA) the Colorado Department of Health (CDH) the Department of Energy (DOE) and EG&G Rocky Flats Inc The DOE agreed to implement the following items

- 1 Two thousand square feet of land will be mitigated into a wetland area. Any open water will not be included in this two thousand square feet.
- 2 Vegetation coverage will be in the form of cattails willows and sedges
- 3 Cattail coverage will be vegetated on one foot centers
- 4 Cottonwoods will not be considered a mitigation item
- 5 Existing wetland vegetation will be monitored to alleviate concerns over inadvertent impacts
- 6 To measure success of the newly established wetland the area will be monitored at the end of each growing season (late August, early September) A report of the monitoring findings (including photographs) will be submitted to EPA and CDH by August 30 for a five year time period
- 7 By April 15 1993 DOE will notify EPA and CDH of the progress of revegetation activities including a survey map and a cross section of the area to be revegetated status of the cattail procurement and estimated time when planting will occur

DOE requests a written concurrence from you on these items If we do not hear from you within fifteen working days after the receipt of this letter we will assume you agree with the mitigation plan
